The Plugster™ - As seen on TV

Plugster™

The Plugster™ is a great product which is not only safe, but is ideal for helping anyone remove electrical plugs from wall sockets or extensions.

It is a simple, low-cost, machine recyclable solution with the potential to help millions of British people who find removing plugs a daily challenge. Made of durable HDPE, they provide a superb advertising medium.

1 Put the bottom section onto the plug as illustrated.

2 You have a choice of two sets of holes dependent on how much grip you require.

3 Now get hold of the top section and pull over the plug.

4 Position onto the plug pins.

5 This is how it should look.

6 Now put the plug into the socket and it is ready to use.

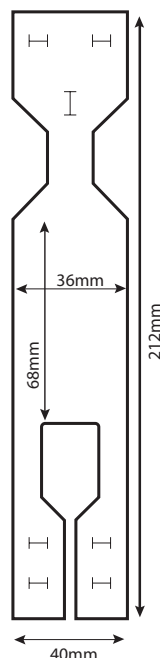

7 You can now use the Plugster™ and have your details on show.

The Plugster™ is also perfect for use as a labelling system to identify which plug belongs to which electrical appliance - great news for anyone. The Plugster™ means an end to the confusion of electric cables behind a TV, Hi-Fi or PC.

This product would be ideal for councils, charitable organizations or even electrical outlets, who can leave their details with customers and potential customers. The information will remain on view for a long time.

We can print your details on the Plugster™ and you can leave room for adding further information.

Tested by Bureau Veritas using B.S. 1363-1:1995 and BS EN 60335-1:2002
